

Pinwheel or Boat Origami

1. Start with the paper white side up (or with the flaps up if using a blintz fold).

Blintz fold (see Tip above):

2. Fold in half side to side.

3. Unfold.

4. Fold two opposite sides to the center crease.

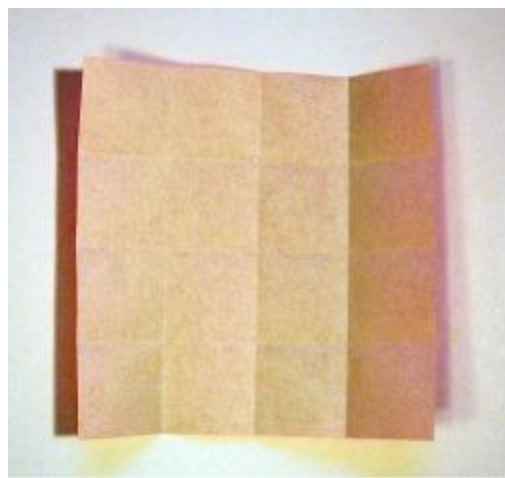

5. Unfold and turn one quarter to orient as shown.

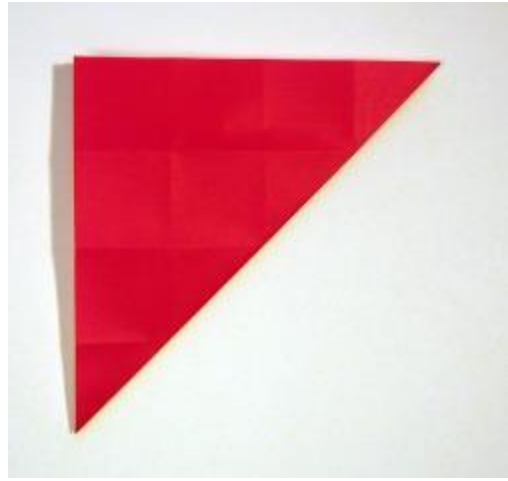

6. Repeat Steps 3 and 4.

Unfold and you have a 4x4 grid of little square creases.

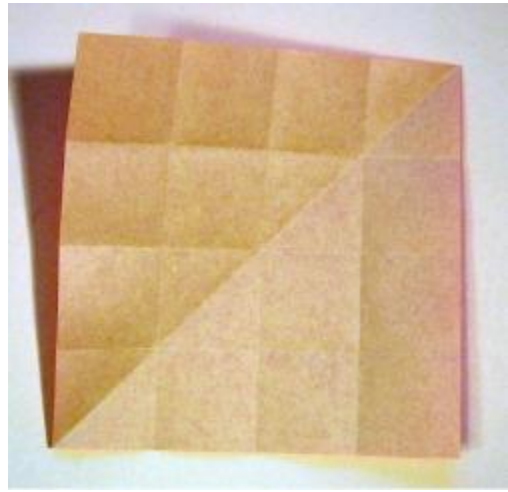

Pinwheel or Boat Origami

7. Fold corner to corner.

8. Unfold.

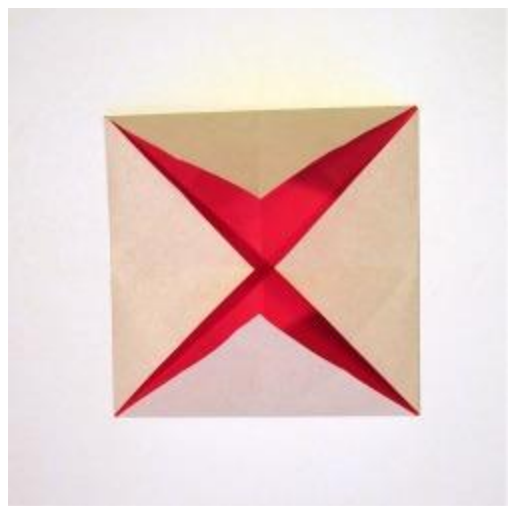

9. Fold the other two corners together.

10. Unfold and place it white side down.

11. Fold all four corners to the center point.

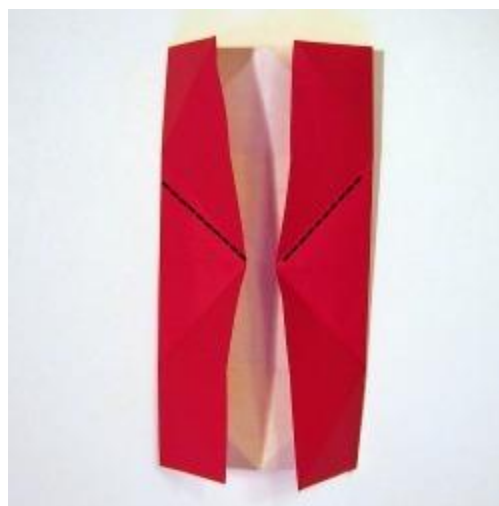

12. Unfold and place it colored side down.

Pinwheel or Boat Origami

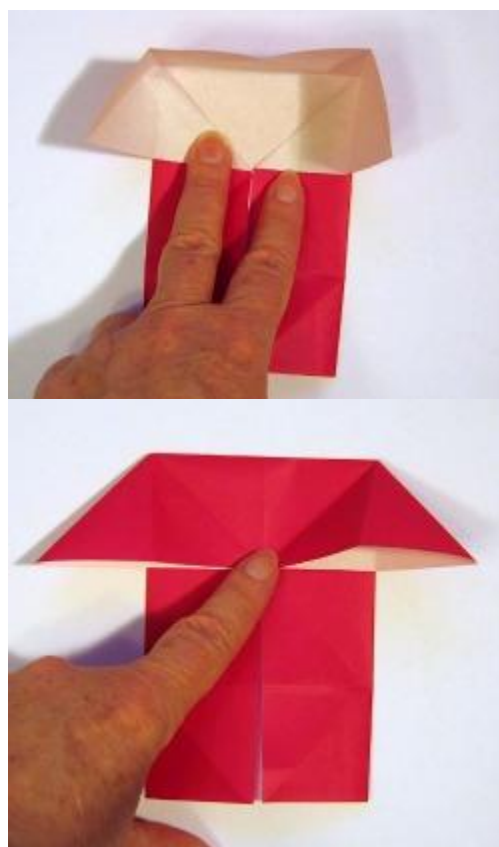

13. Using existing creases, fold two opposite sides to the center crease. It doesn't matter which two sides.

At the next step, you will fold along the two creases marked with **dashes**.

14. Using the existing creases, fold the inner edges of the upper half down and out.

Collapse the upper half completely, folding the corners of the paper in half along the creases you made earlier.

15. Repeat with the lower half.

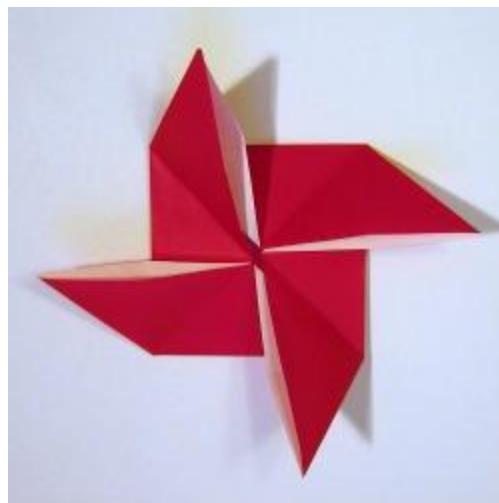

16. To make a catamaran boat, skip to Step 17.

To make a pinwheel, fold two of the triangles so that all four arms of the pinwheel are facing the same direction.

You could use a pin to attach your origami pinwheel to a stick.

17. To make a catamaran boat or double candy dish, turn the model over.

18. Fold the top half down.

Pinwheel or Boat Origami

19. Set it upright and open the two compartments.

You could make a sail for your origami boat with a stick, some more paper, and glue.
